Profile Summary

A highly motivated BSc (Hons) Software Engineering graduate with hands-on experience in building modern web and mobile applications. Proficient in the MERN Stack (MongoDB, Express, React, Node.js) and Java/Spring Boot. Dedicated to writing clean, maintainable code and eager to contribute to innovative software projects while continuously expanding technical expertise.

Education

BSc (Hons) degree in Software Engineering (2024-2025)

Cardiff Metropolitan University (ICBT Campus)

2nd Class Upper Division

Higher Diploma in Computing & Software Engineering (2022-2024)

Cardiff Metropolitan University (ICBT Campus)

Merit Pass

G.C.E Advanced Level Exam (2021)

Physics - S, Chemistry - C, Combined Maths - C

G.C.E Ordinary Level Exam (2017)

6As, 3Bs

Skills

Frameworks/Libraries

-  React.js
-  Node.js
-  Express.js
-  Springboot
-  Bootstrap
-  Tailwind CSS

Frameworks/Libraries

-  HTML
-  CSS
-  JavaScript
-  Java
-  PHP

Databases

-  MySQL
-  MongoDB

Tools & Design

-  Git
-  Github
-  Illustrator
-  Photoshop
-  Premiere Pro
-  Figma

Languages

Sinhala 

English 

Projects (Github)

Vortex Cinemas Movie Theatre Website

- Built a full-stack movie booking platform using PHP, MySQL, and Bootstrap, featuring secure authentication, an admin dashboard for showtime management, and a responsive UI for seamless cross-device use.

The Outer Clove Restaurant Website

- Developed a high-end restaurant management website using PHP, MySQL, HTML5, CSS3, and JavaScript, featuring an interactive menu, photo gallery, contact system, and a fully responsive, elegant UI for enhanced user engagement.

Fluffy Mobile Application

- Developed a native Android pet-sitting app in Java with user profiles, real-time booking, in-app communication, and optimized MySQL-based data management.

Online Ticket Reservation System

- Developed a scalable and high-performance modular backend for ticket reservations using C#, implementing RESTful APIs for secure client-server communication and applying clean architecture principles to ensure long-term maintainability.

ABC Restaurant Management System

- Built a full-stack food ordering and table reservation platform using React.js and Tailwind CSS for the frontend, and Spring Boot with MySQL for the backend, featuring secure authentication, real-time query handling, and a business reporting dashboard.

Car Rental System

- Built a MERN stack car rental system with secure role-based authentication, a responsive React frontend, and a Node.js/Express backend managing bookings, vehicles, and users, fully hosted on Render.

Movie Searching System

- Built a MERN stack movie app using the TMDB API, featuring favorites and a responsive React frontend with a Node.js/Express backend.
